No.	Epic	Action/Observation
1	Epic 1	The create account button is pressed and afterwards the following details are entered: name: Accept, email: accept@test.com, password: accept. Then the create account button is pressed. The account is now visible in the firebase database and the user is automatically redirected to the home screen
2		The user presses the account screen in the navigation bar, the presses the Sign out button. The user is redirected to the login screen. When signing out a toast appear from the top of the screen saying "Signed out".
3		The user logs in with the credentials email: accept@test.com, password: accept. The Sign In button is pressed. A window from Samsung pops up asking if the user wants to save the password for future use, this is closed and the user is redirected to the home screen.
4		The user presses the account screen, then presses the edit preferences button. The user presses the cuisine options: Italian, French, Thai, and Spanish as well as the Category options: Chicken, Beef, Pasta. A toast appear from the top of the screen saying "Your dietary choices have been updated." The dietary options appear in the firebase database.
5	Epic 2	The user presses the explore screen in the navigation bar then presses the camera button, where a camera window appears in the explore screen. A picture of an apple on a computerscreen is taken with the phone camera (https://www.walmart.com/ip/Fresh-Red-Delicious-Apple-Each/45912954). The app "thinks" for 30-60 seconds. The results is then given where it reads "Detected cabbage (17.5%)" Cabbage is added as a search term underneath the text input field.
6		In explore screen the text "Apple" is input and spacebare is pressed afterwards. The search term "apple" is added underneath the input field, so it now reads "cabbage apple", as cabbage was added in the previous test.
7	Epic 3	The home screen in the navigation bar is pressed and Empanads is pressed where a detailed view of the Empanadas recipe is opened. The bookmark icon is pressed causing it to change color to green. A toast comes down from the top of the screen saying "Added to your saved recipes." The id for the recipe is visible in the firebase database. The user closes the detailed view for Empanadas using the "X" button in the top right and presses the saved recipes screen in the navigation bar where the Empanadas recipe is present.
8		In the explore screen the user removes the search terms "apple" and "cabbage" by pressing on them. 3 new search terms are added with text through the input field: "onion", "garlic", and "potatoes". Enter is pressed to start the search. 5 recipes appear with the match badge good in the top and underneath them are recipes with no match badge.
9		In the explore screen the user removes the search terms "apple" and "cabbage" by pressing on them. 3 new search terms are added: "onion", "garlic", and "potatoes". Enter is pressed to start the search. 5 recipes appear with no way to refresh the search results.
